

**This working paper has been removed.**

Janson, Wesley, and Randal Verbrugge. 2020. "Will COVID-19-Induced Rental Nonpayment Drive Large Reductions in Shelter Inflation? Hints from the Great Recession." Federal Reserve Bank of Cleveland, Working Paper No. 20-22.

Working paper 20-22 was reviewed by staff at the BLS prior to its posting. After its posting, subsequent discussions with staff at the BLS revealed that the BLS treatment of nonpayment is different from the treatment assumed in the working paper. As a result, the authors have removed the old version of the working paper in order to incorporate this new information.
