Welcome to the Shenango-Mahoning Valley BAC at the Cleveland Fed

Agenda

- **Introductions**
  - Russell Mills, Vice President and Regional Executive, Pittsburgh Branch
- **Welcome**
  - Mark Meder, First Vice President and Chief Operating Officer
- **Occupational Mobility Explorer (OME) Overview**
  - Kyle Fee, Policy Advisory
- **Economic Outlook Presentation**
  - Russell Mills
- **Economic Discussion**
  - All
- **Closing Remarks/Adjournment**

* High school diploma or equivalent typically required ** Postsecondary nondegree award typically required *** Associate's degree typically required

What Is the Occupational Mobility Explorer?

- The Occupational Mobility Explorer (OME) is a FREE interactive tool that allows users to explore career paths and visualize how overlapping skillsets can facilitate upward mobility from lower-paying to higher-paying jobs in over **500 US locations** and across **600+ job titles.**

- A "career navigation system" that combines public and proprietary labor market data.
  - The 2023 occupation-specific information (wage, location, and projections) is from the Bureau of Labor Statistics.
  - Top 25 skills requested by employers in online job ads for each occupation; 2,300+ unique skills representing employer demand (Lightcast).
  - Some of the occupation connections are obvious (e.g., licensed practical nurse to registered nurse), others less so (e.g., motorboat mechanics to industrial engineering technologist).

How Does the OME Work?

- Each pair of occupations has a similarity score, which ranges from 0 to 1 based on the degree of overlap and the skill intensity of a pair's top 25 skills.
- In the tool, we classify skill similarity scores for each pair of occupations as high, medium, and low.
- Tool presents the 10 higher- (or lower-)paying occupations with the highest skill similarity score for each occupation.

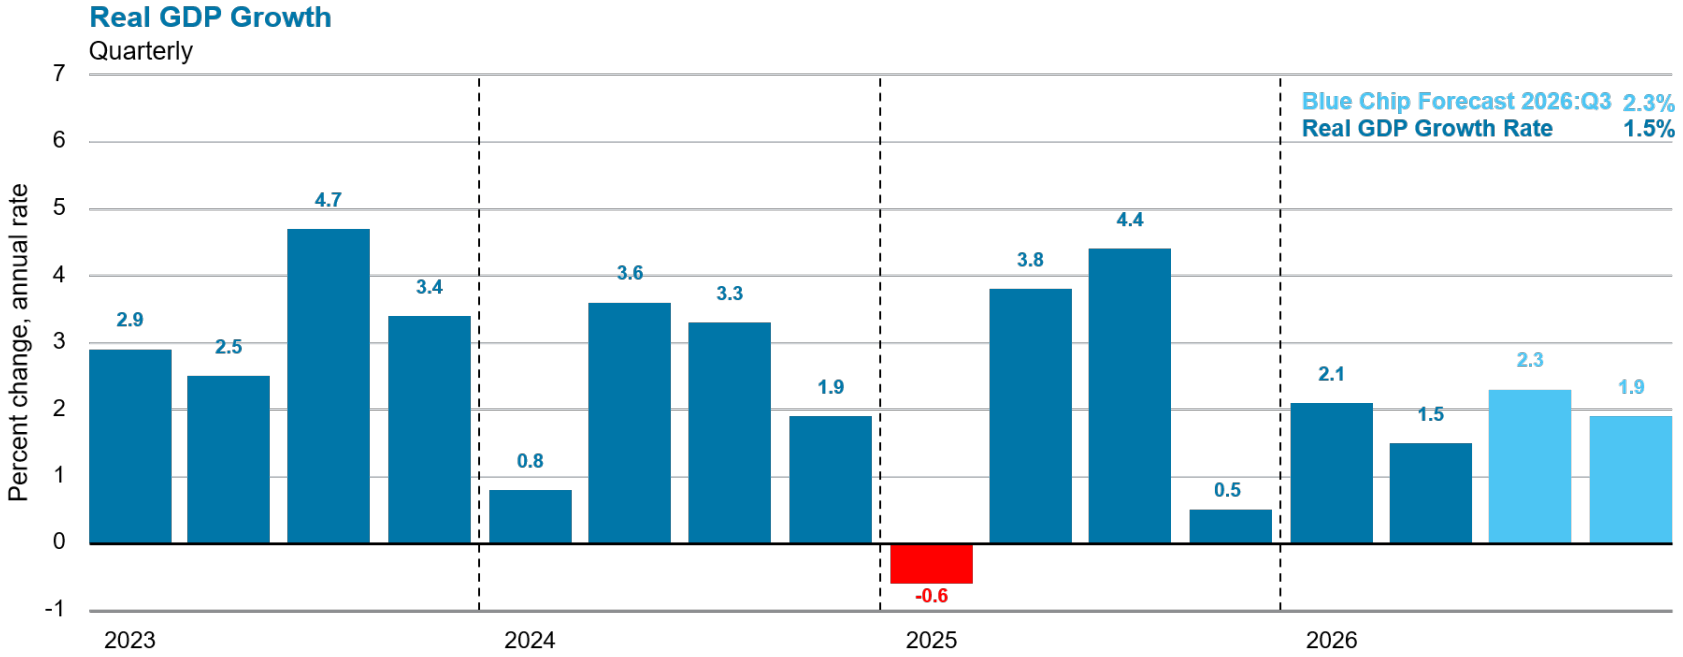
Economic Outlook and Discussion

Russell W. Mills, Ph.D.
Regional Executive, Pittsburgh Branch
Shenango-Mahoning Valley BAC
August 24, 2026

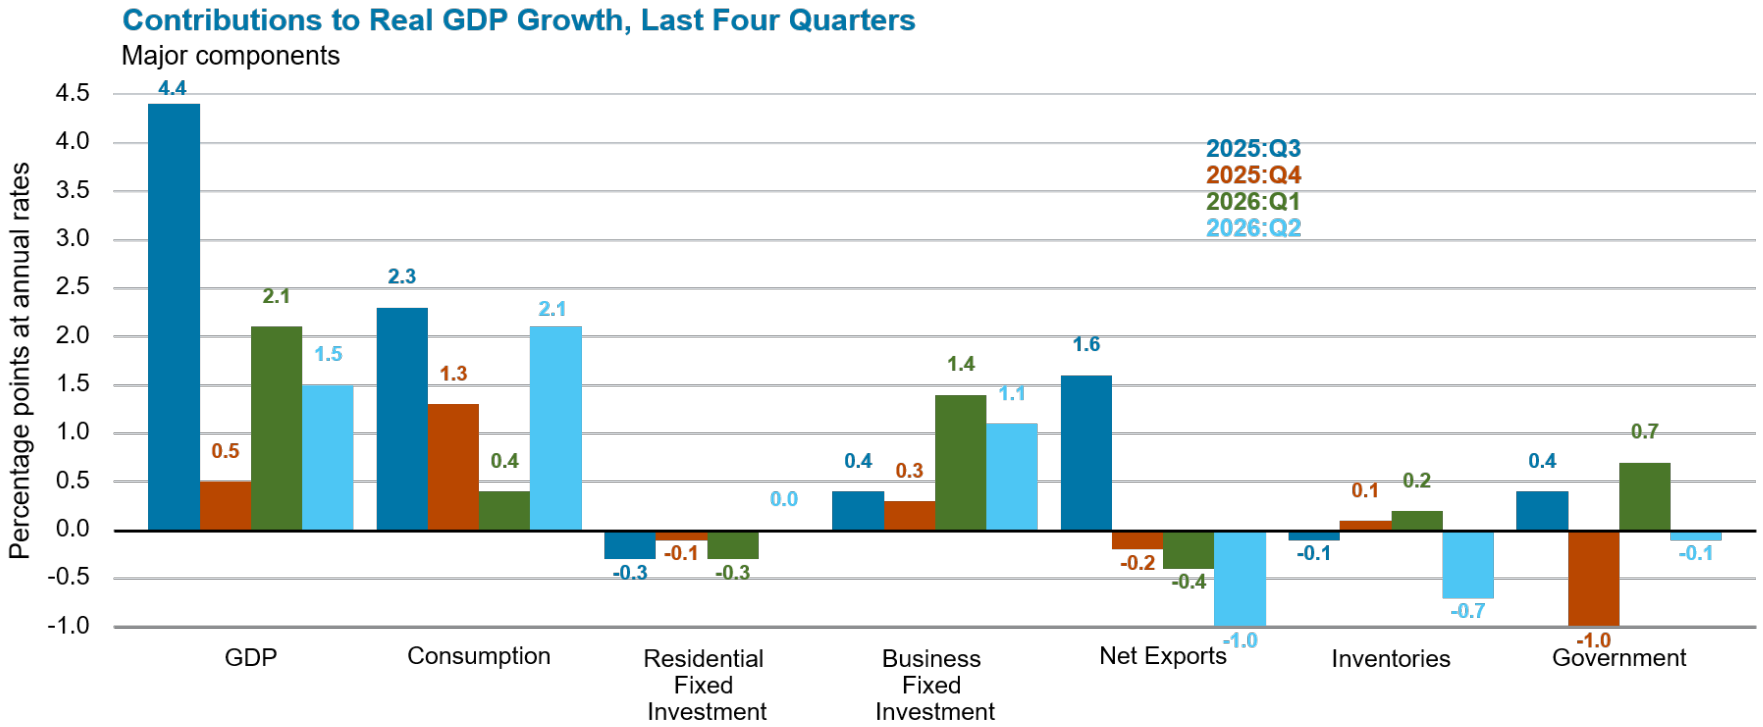
The views expressed in this presentation are those of the author and do not necessarily represent the views of the Federal Reserve Bank of Cleveland or the Federal Reserve System.

GDP growth remained robust despite the pace of growth slowing in Q2 2026



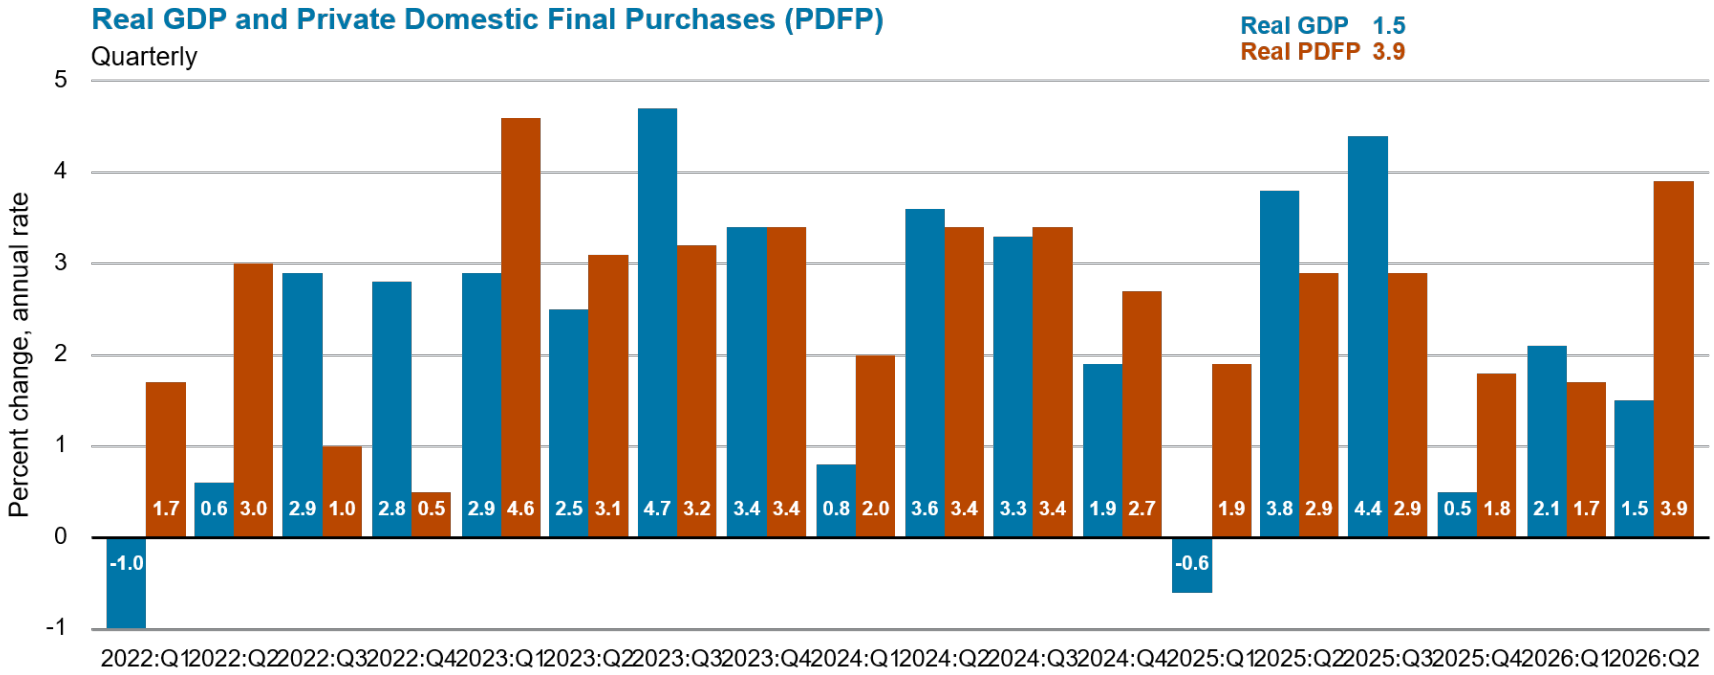
Source: Bureau of Economic Analysis and Wolters Kluwer via Haver Analytics.
Notes: Real GDP data are seasonally adjusted.
Last Data Point: 2026:Q2. Forecasts through 2026:Q4 are updated monthly.

Consumption and business fixed investment drove GDP growth in Q2 2026



Source: Bureau of Economic Analysis via Haver Analytics.
Last Data Point: 2026:Q2.

Fluctuations in trade and inventories masked strong consumption and BFI growth



Source: Bureau of Economic Analysis via Haver Analytics
Last data point: 2026 Q2
Note: PDFP is equal to GDP less government consumption expenditures, inventory investment, and net exports.

Spending on data centers and computing equipment remains robust

Private Construction Spending: Data Centers

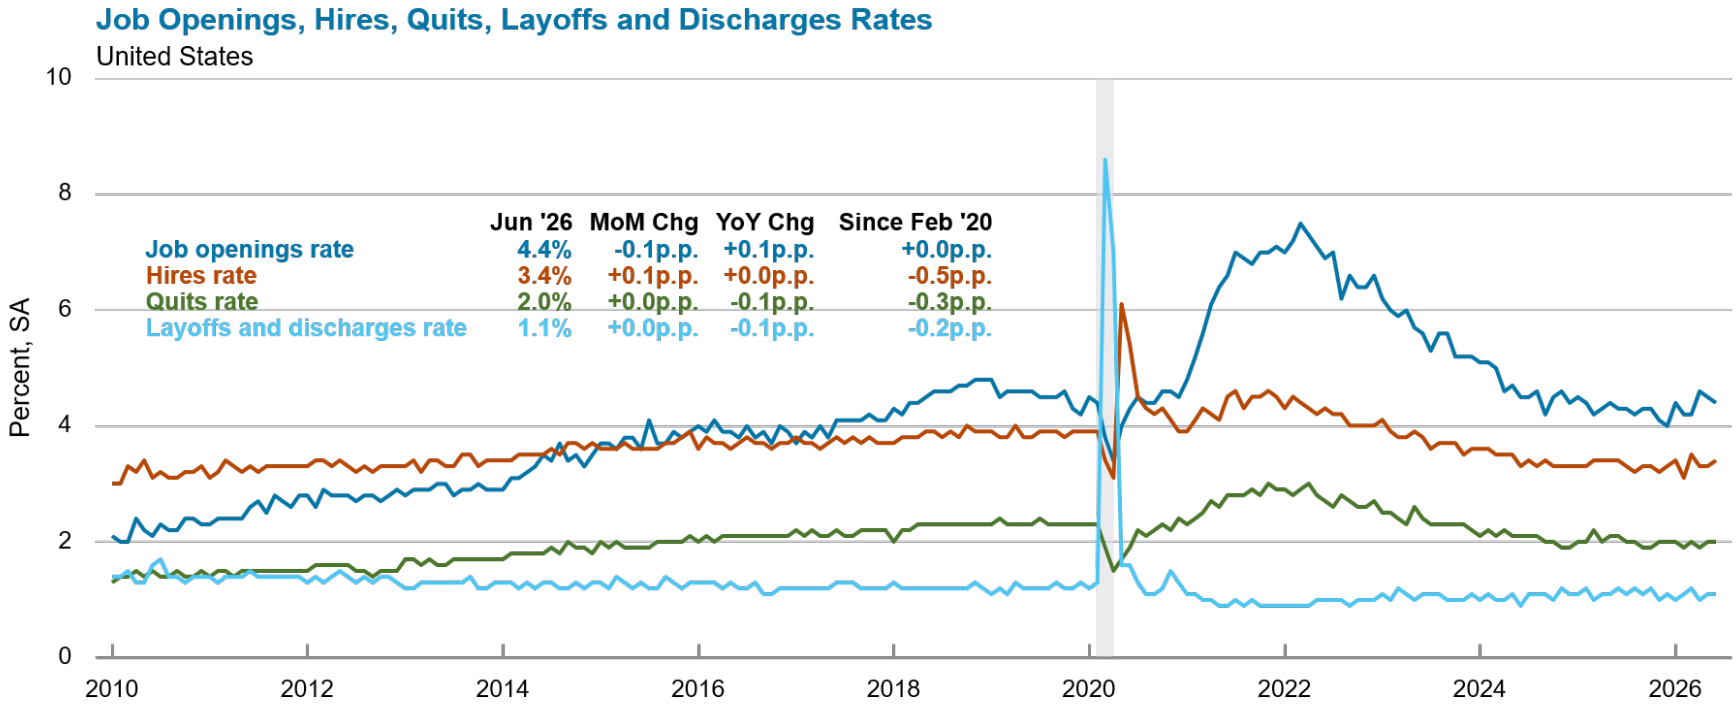
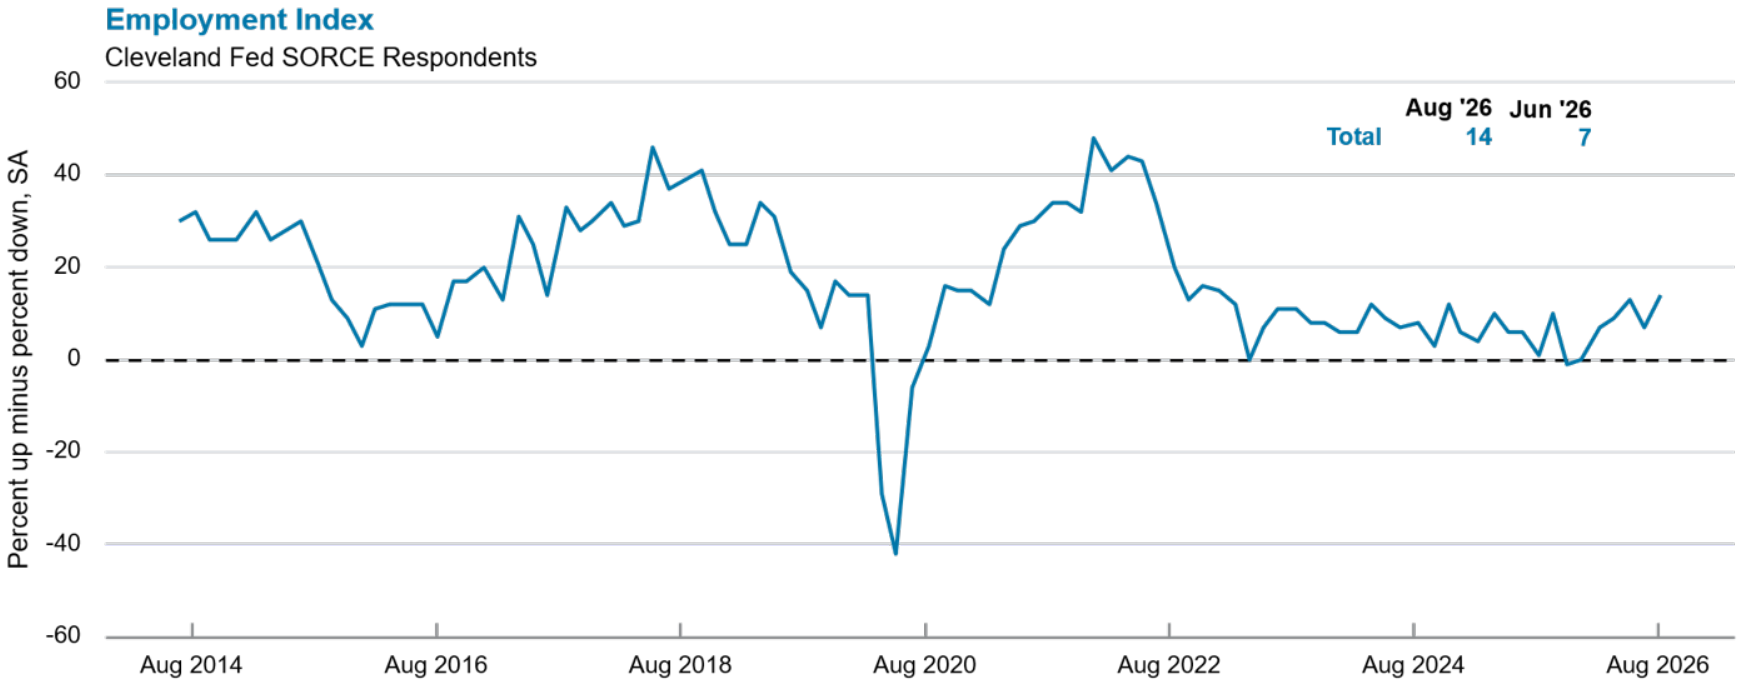
The “low-hire, low-fire” labor market trend continues



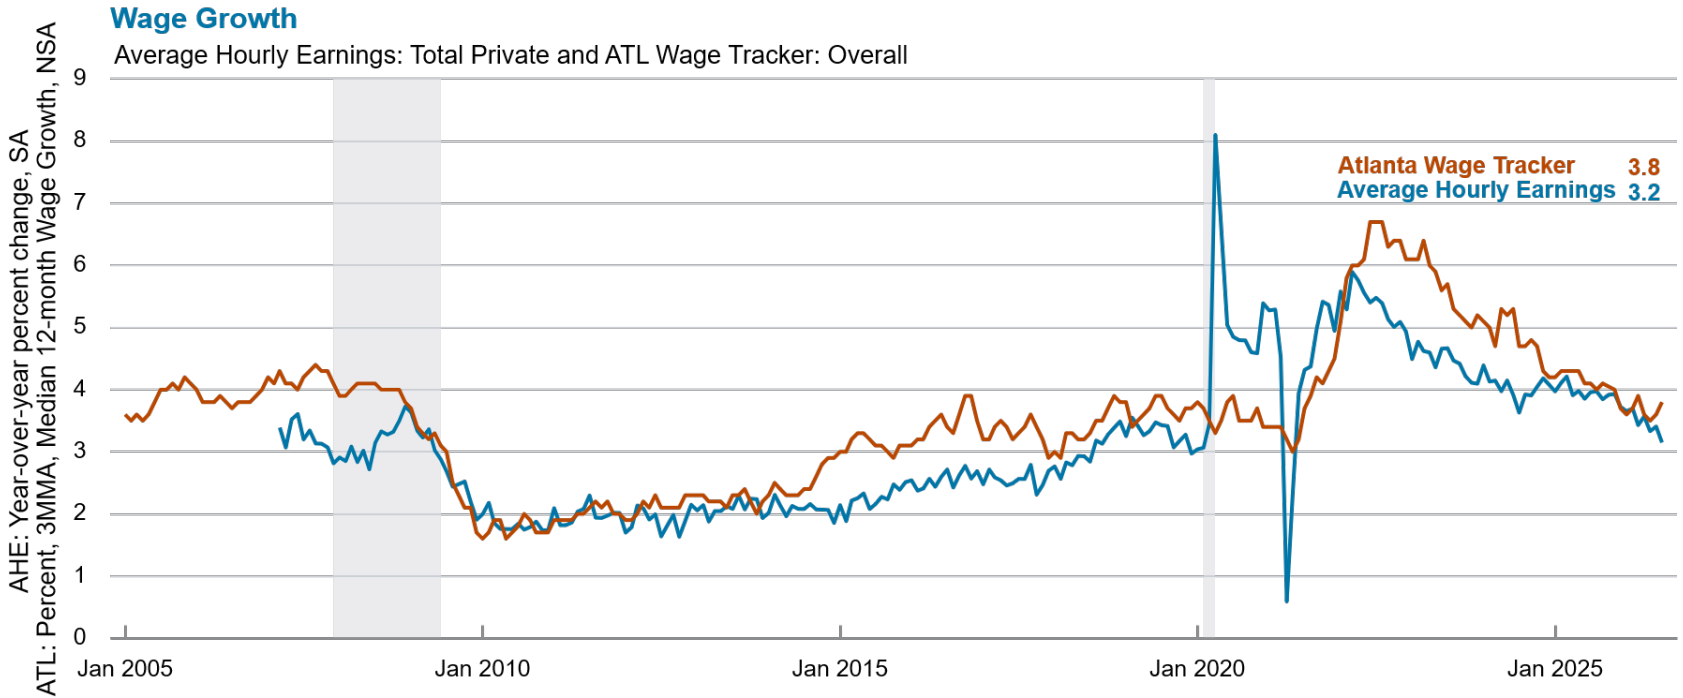
Source: Bureau of Labor Statistics via Haver Analytics
Last data point: June 2026

Firms reported a slight increase in staffing levels in our most recent survey



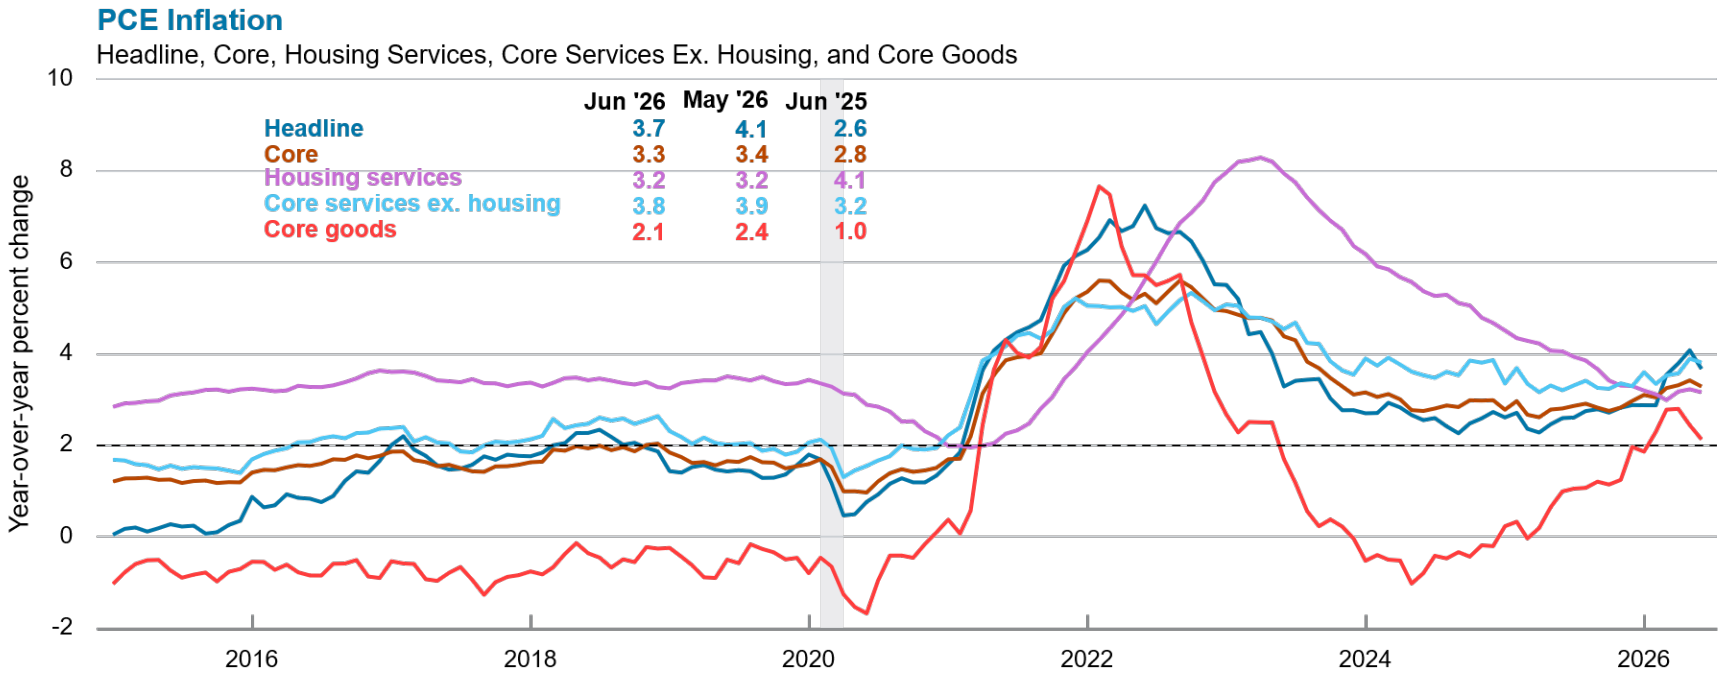
Question: How have your staffing levels changed in the last two months?
Average collection date of last survey: Aug 9, 2026 (n = 194)
Source: Federal Reserve Bank of Cleveland Survey of Regional Conditions and Expectations.

Wage growth has slowed in the past year, returning to pre-pandemic levels



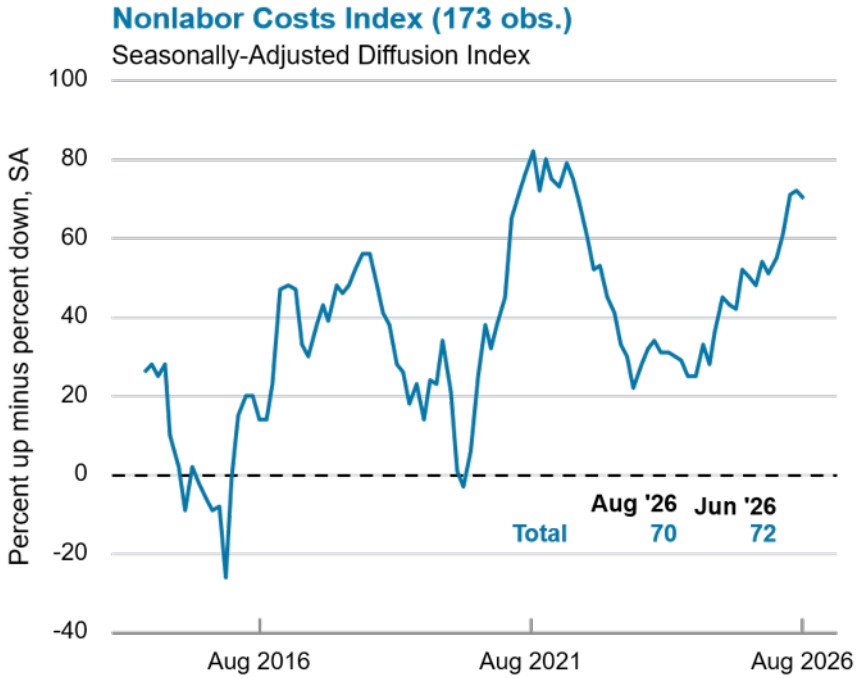
Sources: Bureau of Labor Statistics and Federal Reserve Bank of Atlanta via Haver Analytics
Last data point: July 2026 for Average Hourly Earnings, July 2026 for Atlanta Wage Tracker.

Despite moderating slightly in June, PCE inflation remains above FOMC 2.0% target

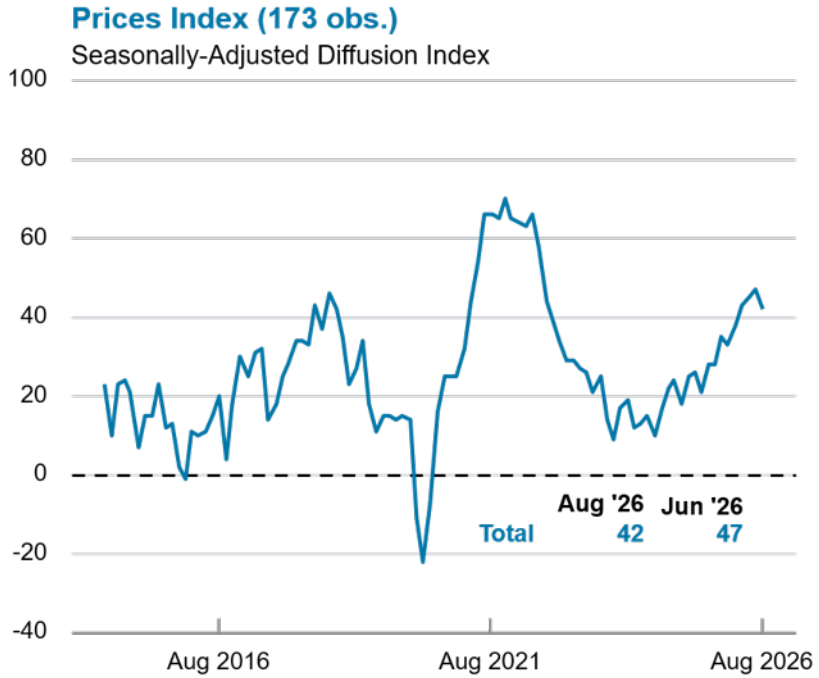


Source: Bureau of Economic Analysis via Haver Analytics and FRBC calculations.
Note: Horizontal dashed line represents FOMC target rate.
Last Data Point: June 2026.

Firms continue to report increased nonlabor costs and selling prices

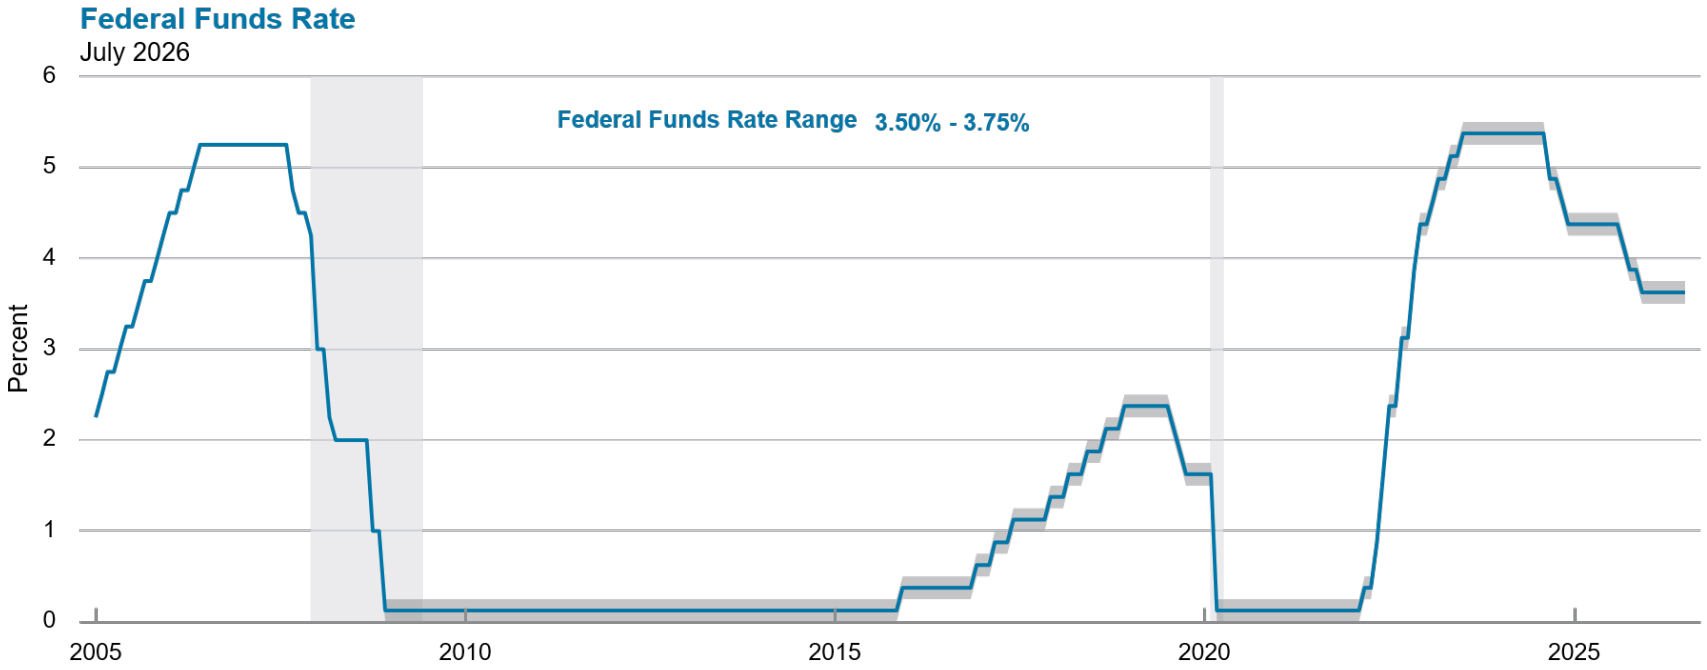


Question: How have input costs (excluding employee compensation) changed in the last two months?
Average collection date of last survey: Aug 9, 2026



Question: How have the prices of your products or services changed in the last two months?

The FOMC held the Federal Funds rate steady at its July meeting



Source: Federal Reserve Board via Haver Analytics
Note: Line shading indicates upper and lower limits of range. Vertical bars indicates recessions.
Last data point: July 2026

Economic Discussion

Discussion Questions

- **Business Activity**
  - How has customer demand evolved in your business in 2026 to date, and what factors are driving shifts in demand, if any? What are your expectations for customer demand for the remainder of the year?
- **Costs**
  - How have your nonlabor/input costs evolved in 2026 to date, if at all? Which input costs have experienced the most significant changes, and have these been broad-based or concentrated in specific categories?
- **Prices**
  - What pricing changes, if any, has your firm implemented in the first half of 2026 and are these changes unusual compared to recent years? What factors are shaping your pricing expectations for the remainder of the year?
- **Wages/Labor Market**
  - How have wage pressures evolved so far in 2026 compared to a year ago? Are you having to raise wages to find and/or retain talent? How does the pool of applicants for open positions today compare to that from a year ago?

Fed Communities- A digital platform of CD resources across the System

- **Insights and Events**
  - Employment: Worker Perspectives research
  - Child care: A Q&A with child care experts (including Charles Aull from the KY Chamber of Commerce), and small business strategies for supporting employee child care needs
  - Affordable housing: How the Fed studies and understands housing's role in the economy
  - Impact of data: Stories showing how people use Fed data and tools such as the SBCS and the OME
  - Data tools: Banking Deserts Dashboard
  - 2026 Community Development Research Seminar Series: Focused on place-based initiatives
  - Connecting Communities: Webinar series on various CD topics

    September 3- Worker Perspectives

    October 8- Opportunity Zones

    November 5- Financial Inclusion Resource Center
