

Logicals: An African Safari's Big Five!

Explore your logic-based reasoning skills with this Logical. Figure out the answers by using the process of elimination. This puzzle is set up as a grid. There are five columns and five rows—one for each category and for each person's name. Each category contains several options. The goal is to eliminate all but one answer in each category under each person's name to figure out the answers.

STORY:

Oliver, Joel, Jenny, Skylar, and Rosie are friends. They went to South Africa on a safari and each selected one of the Big Five animals to spot. Can you name the animal each friend spotted?

Answers are at the bottom of the page. Don't peek—and have fun!

CLUES:

- Jenny does not like buffalos.
- This person selected an animal that begins with the same letter as their name.
- Oliver likes cats.
- This person's name has the same number of letters as the animal's name.

	Lion	Elephant	Buffalo	Leopard	Rhinoceros
Oliver					
Joel					
Jenny					
Skyler					
Rosie
