Many people put their money in a bank. A bank is a safe place to store money. But people will often also keep their money at home in a safe spot like in a piggy bank. Follow the instructions listed below to build your own bank.

Instructions

**Step 1:** Print this worksheet

**Step 2:** Decorate your bank

**Step 3:** Cut out the shape by cutting along the edges. Also make sure to cut a money slit into the square, labeled top. Since you will be gluing the bank together, make sure you do not cut off the tabs!

**Step 4:** Fold the paper. Follow the lines along the inside and fold the paper and tabs inward. The square, labeled bottom should be folded so it is parallel with the square, labeled top

**Step 5:** Now glue the sides together by placing a drop of glue on the tabs and bringing the sides together. Your bank is now complete and ready for you start filling it up!
